PROJECTS

Daily To-Do — Task Management App

UI/UX Designer | Figma

- Passionately designed 35+ mobile screens to create a seamless and engaging daily task management experience.
- Applied user-centered design thinking through user research, competitor analysis, personas, empathy mapping, and user flows.
- Created intuitive interfaces for task management, smart reminders, priority setting, habit tracking, and productivity monitoring.

Tea Kudil — Mobile Ordering App

UI/UX Designer | Figma

- Designed a mobile tea-ordering app concept focused on simple navigation and a user-friendly ordering experience.
- Created interfaces for tea discovery, product customization, favourites, ordering, and delivery tracking.
- Applied Fitts's Law, Hick's Law, and Jakob's Law to improve navigation and simplify user interactions.
- Used consistent colors, typography, and reusable UI components to create a cohesive design.
